

Задание I

Прочтите и сделайте письменный перевод следующего текста профессионального содержания

All internal organs are situated in the chest and abdomen. The chest is separated from the abdomen by the diaphragm. The principal organs of the chest are the gullet, the heart and the lungs. The gullet connects the pharynx and the stomach. There are two lungs-one in each half of the chest. They differ in size. The right lung is larger than the left one. There is the heart between the lungs behind the breastbone. The heart pumps the blood to the whole body. The lower part of the trunk is the abdominal cavity. The principal organs here are the stomach, the liver, two kidneys, the gallbladder, the pancreas, the spleen, the small and large intestines, the bladder and internal sex glands. There is the liver with the gallbladder in the right upper abdominal part. The liver is the largest and heaviest organ in the body. It works over all the products of digestion. The liver destroys poisons and bacteria which get into the blood. There is the stomach, the pancreas and the spleen in the left upper part of the abdominal cavity. Behind them there are the right and left kidneys at the back. The small and large intestines occupy all the lower abdomen. Here is also the bladder and sex glands. Each internal organ of the body plays a specific role in the organism. The branch of medicine which studies internal organ diseases is called internal medicine.

Задание II

Часть I

Вы 2 раза услышите диалог, постарайтесь понять его содержание с тем, чтобы в Части II данного задания, сделать правильный выбор утверждений.

Часть II

Определите, какие из приведённых ниже утверждений соответствуют содержанию диалога (A – True), какие не соответствуют (B– False) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (C – Not stated). Запишите выбранный Вами вариант ответа.

1. The patient has a bad headache.

A) True B) False C) Not stated

2. The doctor examines the patient`s mouth.

A) True B) False C) Not stated
